

Village of Richfield Public Works Committee minutes  
Friday, 2/24/23

In attendance: Ms. Phillipbar, Mr. Hudak, Mr. Waldermerson, Mr. Keserich, Mr. Waszak, and Mr. Brad Lakhir (Glencairn Forest resident)

Chairman Waszak called the meeting to order at 9:03 a.m.

Mr. Waszak indicated that he was aware that Mayor Wheeler and Mr Chojnacki had discussed the Glencairn sanitary sewer situation at length, however he was not aware of the results of the conversation.

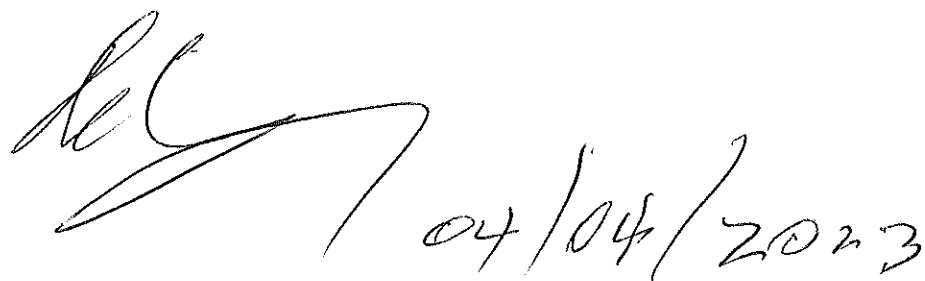

Since a Glencairn Forest resident was in attendance, the committee reviewed the options of stream reconfiguration or the replacement of the sewer to solve the exposed manhole situation.

Mr. Hudak questioned whether the Summit County engineer or Summit County Soil and Water District officials were made aware of the problem. Members in attendance did not believe that this was done.

Mr. Waszak stated that the Glencairn project was approved by the Summit County Planning Commission and as part of that review by SCSWCD and the engineers office. Waszak stated that he was a member of the commission at that time but recused himself.

Based on discussion it was determined to have Mr. Waldermerson apprise SCSWCD of the situation and to postpone discussions with the engineer's office until we obtain more information from the mayor and law director.

The meeting adjourned at 9:50a.m.

A handwritten signature in black ink, followed by the date 04/04/2023.
