Dear Good Neighbor,

Energy production facilities and distribution companies are important to the United States economy and our everyday lives. For this reason, we prioritize the security of our facilities to keep them safe and operational.

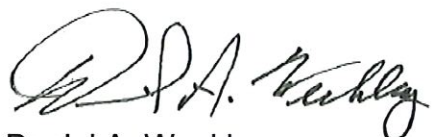

But we can't do it alone. We ask neighbors like you to join our **Neighborhood Watch** to help keep an eye on these vital parts of America's infrastructure. Our message is simple, "**Stop, Observe and Report.**" The enclosed brochure gives you examples of what to watch for and who to contact if you see suspicious activity at or around a Dominion Energy gas facility. Please feel free to contact us if you suspect foul play.

Protecting America's infrastructure is everyone's responsibility, and the more partners in our **Neighborhood Watch**, the safer our neighborhoods and facilities will be.

For the safety of everyone, we encourage you to share the information in this brochure with family members, neighbors, and community groups that you're involved in. Increased awareness will increase the likelihood of curtailing acts of violence.

Thank you for supporting our efforts to maintain safe operations of our facilities and for being good neighbors.

Daniel A. Weekley
President & General Manager
Dominion Energy Ohio
