

Village of Richfield

Leaf Collection Information

- Leaf pickup begins in the fall when most of the leaves have fallen to the ground.
- We will pick up leaves until they are all gone or until the snow is too deep to retrieve them.
- Once we have done an area, we will not come back until we have completed all other areas of the Village and start the next round.

Please have the leaves raked to the front ditch line of your property or within five feet of the road's edge. Reference the photos below when you're ready to put leaves out for collection.

If your leaf piles are not close enough to the road, our Service Department cannot pick them up.
